

Do not scale - if in doubt ask

Key Plan

Notes

1. All dimensions in metres unless noted otherwise.
2. The draft Order limits presented in this Map Book may be further refined or amended following this consultation and prior to the submission of our DCO application.
3. The draft Order limits illustrated on this plan includes those areas in which land, or rights over or under land, are anticipated at this stage to potentially be required temporarily or permanently for the SESRO project.
4. This plan shows our indicative masterplan, which shows one way in which we could lay out the permanent features of the Project. The indicative masterplan is subject to further refinement as we undertake further investigations and assessments and consider feedback received during this statutory consultation. In addition, it is important to note that the final layout of the permanent features of the Project will be confirmed during the detailed design process carried out in accordance with the terms of the development consent order that gives consent for the Project, if approved.
5. For details on the indicative location of ancillary infrastructure for T2ST Water Treatment Works, ancillary infrastructure for Farmoor Transfer and the safeguarded space for the STT Pipeline refer to the Preliminary Environmental Information Report Figure 2.1: Project Overview.
6. *These traffic and transport (T&T) highways improvements are described in the Preliminary Environmental Information Report Chapter 2 in Section 2.5.

Legend

- Draft Order limits
- Area omitted from draft Order limits
- Neutral Grassland
- Modified Grassland
- Lowland Meadow
- Grazing Marsh
- Wet Woodland
- Woodland and Copse
- Scrub
- Enhanced Hedgerow
- Native Rich Hedgerows
- Native Rich Hedgerows with Trees
- Project Priority Areas for Biodiversity (PAB)
- Seasonal Wetland
- Ditches
- Ecological Pond
- Lagoon
- Floating Island
- Integrated Constructed Wetlands (Foul Treatment)
- Contours with 5m intervals
- Active travel routes, additional footpaths and non-motorised user (NMU) provision
- 132kV Overhead Line Diversion
- Landscape Earthwork
- Crest Nodes
- Reservoir Water Extent
- Recreational Lakes
- Rip rap
- Recreation and amenity related buildings
- Infrastructure related buildings
- Highways
- Shared Use Ramps
- Maintenance Access Track
- Balancing Ponds
- Watercourse Diversion
- Provision for Wilts and Berks Canal (Water Channel)
- Retained Scrub
- Retained Water Body
- Retained Woodland
- Floating Solar
- Ground-mounted solar (solar farm reprovision)
- River Tunnel
